

# PCRS Conference 2025

## Top tips for submitting a scientific research abstract

This infographic has been adapted from guidance originally developed by the IFCRG.

Include a hypothesis

Include data and check it is accurate

Check it is relevant to a primary care audience

Consider if it is relevant to the conference theme

If it is a service development consider if it should be submitted under Best Practice / Service Development category

Check it is within the allowed word count (300 words)

**Submit online by  
30th June 2024**
