

THE BASIC SHELL STAND

Your stand is built using the Click construction system. This is a modular aluminium frame structure in matt-silver anodised aluminium, 2.5m high with posts at 1m centres, each with eight channels; infill panels are finished in either steel grey fabric or white melamine*. Depending on individual stand layout, some panels may be of smaller widths within the overall 1m grid.

A fascia panel is provided on each open side, supported by system posts at intervals: the maximum distance between support posts is 4 metres. The drawing shows details of framework and panel sizes.

- 1 Fascia board - white laminate both sides. Height 300 o/a, 170 visible board.
- 2 System post - 55mm wide with 8 channels.
- 3 System rail - 65mm high.
- 4 Infill panel - with steel grey nylon loop fabric both sides or white melamine*
- 5 Panel for exhibitor name and stand number
- 6 Carpet laid direct to floor*

* Please confirm details with event organiser.

OPTIONAL EXTRAS FOR HIRE

Extra display fittings and wall panels for subdivision of your stand space are available to order. Please note that the only fixing method which may be used directly on wall panels is Velcro dots and strips; **no pins, staples, screws or other intrusive fixings are allowed. If a wall panel is damaged in any way, then an extra charge for replacement will be made.**

If you need to fix heavy objects to walls, you can do so by using a Pendant Panel fitted with a plywood infill which will accept most kinds of fixing.

- 1 Pinboard display panel
- 2 Pendant mirror
- 3 Sloping shelf
- 4 Straight shelf
- 5 Garment rail
- 6 Waterfall garment rail
- 7 Garment hook set
- 8 Power track
- 9 Lighting track on cantilever brackets
- 10 Spotlights
- 11 Literature rack
- 12 Worktop plinth
- 13 Internal partition panels
- 14 Lockable door
- 15 Dwarf panels
- 16 Muslin ceiling
